

Junk towers

With any recycling you have at your house, put it to good use by trying to make the tallest junk tower you can. You may need, scissors, tape, glue or string.

Whilst you complete the activity, time yourself!

Let's do this!

Measure how tall your tower is in centimetres.
Can you convert it to metres or millimetres?

How long did the tower take you to build?
Can you convert the time to seconds or minutes?

Can you make more towers with different junk?
Compare their heights and times taken to make.

Challenge

Does a taller tower always mean a heavier tower?
